In 1984, KGB Defector Yuri Bezmenov (writing under the name “Thomas D. Schuman” after his defection) wrote, “Love Letter to America”, and beginning on page 17 through page 45 describes the Soviet (Russian) long term strategic subversion process. This paper describes some of the forces and techniques influencing and practiced by ANTIFA, Black Lives Matter, the Democrat Party, Marxists, Leftist Media and other detractors of the United States.

THE SUBVERSION PROCESS Yuri Bezmenov (KGB Staff)

THE SUBVERSION PROCESS

You are at war.

- You may not know it
- But your opponents know it and want to keep you sleeping.
- The driving force is: Ideology
- The key process is Ideological Subversion
- The process of changing the perception of reality in the mind of the population

We have been discussing that this war is one of mind control. Literally, in the sense of self assembly nanotechnology in the COVID19 injections changing humans and uploading them to the cloud to create their digital AI controlled twin.

But also in all aspects of reality is mind control going on. We are being told there is no difference between a man and a woman. One would think only an idiot would proclaim that, but it is as the famous Asch conformity mind experiment showed, it is easy to manipulate weak people and make them repeat a blatant lie, because the rest of the group insists that lie is a reality. Many unconscious humans are very weak, and are easily controllable through peer pressure. This is not a function of education, as we have seen many highly educated individuals are incapable of thinking for themselves as the threat of ostracism is overwhelming to their identity.

"Nearly 75% of the participants in the conformity experiments went along with the rest of the group at least one time."

This is why those people who were able to resist the tremendous pressure of the "safe and effective" COVID bioweapon propaganda have shown such unique strength and resiliency. There most certainly exists extraordinary power in the ability to say "NO".

The point of social engineering is to change perception of group think, the greatest disease of human consciousness to date. People would rather take a COVID bioweapon shot than be ostracized, they believe in "safe and effective" because paid CIA actors on television tell them to. They believe that child mutilation for sex change surgery is equality in the name of tolerance. This mind poison is classical communist methodology to convert a democratic society into a socialist dictatorial slavery. They are just following the textbook, read the manual.

Since this is a military war against the civilian population it is important to note that the book "The Art of War" from the military strategist and leader Sun-Tzu who lived in the 5th century BCE is required reading at any Army College. **The basis of winning any war is deception.** Well, looks like the authors of our dystopian plot read that book too, since **we are experiencing an unprecedented scale of deception – to the degree of total satanic inversion of all of society and moral values.**

All warfare is based primarily on deception of an enemy. Fighting on a battlefield is the most primitive way of making war.

There is no art higher than to destroy your enemy without a fight by subverting anything of value in the enemy's country.

Sun-Tzu
500 B.C.

Every aspect of the subversion principles have been applied, the ridicule of all moral values, the corruption of justice. The ridiculous abuse of legal power against political figures – consider the world leaders that were assassinated after speaking out against the COVID narrative – all aspects of the strategy can be found in our recent history.

Sun Tzu's principles of subversion

Cover with ridicule all of the valid traditions in your opponent's country.

Implicate their leaders in criminal affairs and turn them over to the scorn of their populace at the right time.

Disrupt the work of their government by every means.

Do not shun the aid of the lowest and most despicable individual of your enemy's country.

We have seen a lot of this too, bad actors, infiltrators and more.

Sun Tzu's principles of subversion

Spread disunity and dispute among the citizens

Turn the young against the old

Be generous with promises and rewards to collaborators and accomplices

Echoed in COMINTERNs Rules of Revolution

Our future generation has been corrupted by the WOKE social engineering program and many of them mentally crippled for life.

COMINTERNs Rules of Revolution

- Corrupt the young; get them interested in sex, take them away from religion. Make them superficial and enfeebled
- Divide the people into hostile groups by constantly harping on controversial issues of no importance

- Destroy people's faith in their national leaders by holding them up for contempt, ridicule, and disgrace
- Always preach democracy, but seize power fast and ruthlessly

The national debt has been worsened by every administration in the long term plan to subvert and destroy the United States. We have seen the undermining of police force and the support for vandalism, illegal immigration, homelessness and more.

COMINTERNs Rules of Revolution

- Encourage government extravagances, destroy its credit, produce years of inflation with rising prices and taxation.
- Incite unnecessary strikes in vital industries, encourage civil disorders, and foster a lenient and soft attitude on the part of the government towards such disorders.
- Cause breakdown of the old moral values; honesty, sobriety, self restraint, faith in the pledged word

The entire diversity program is meant to attack our nation.

To attack a free nation,

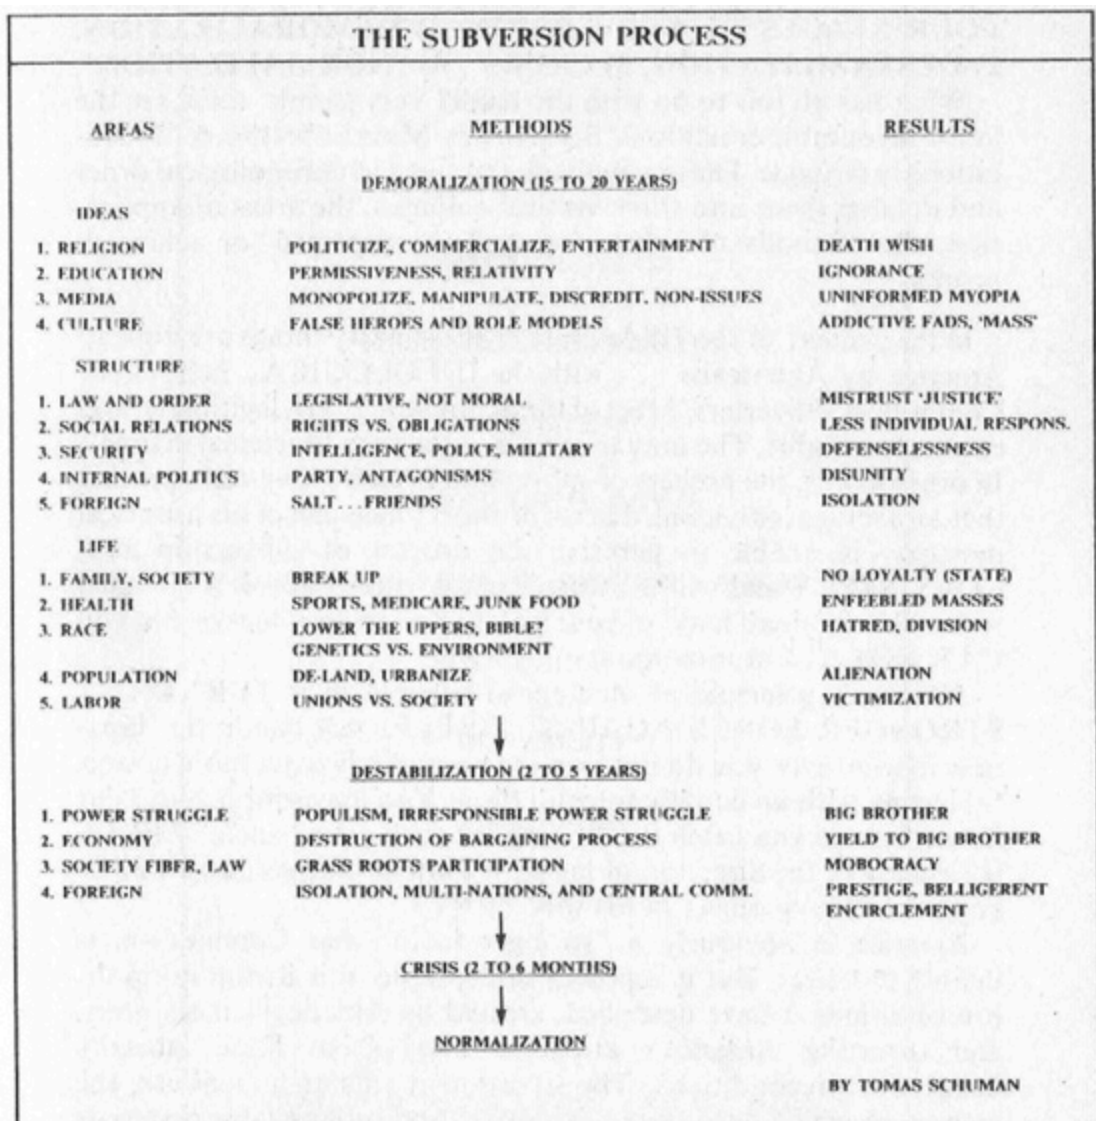

corrupt their precepts and values

- Case Example: Change "equal opportunity" to "equality".
 - This sets in motion the taking from one group and giving to another group: property, money
 - Creates increasing demands on the part of the "takers" and the State (government, political party) becomes the arbitrator.
 - Undermines individual and national character
- (Ask College students to do with their grades.)

Movement from an open to a closed society

- Open Society

Egalitarianism
 Expectations up
 Aspirations vs. Reality
 Discontent
 Productivity Down
 Inflation and Unemployment = Recession
 Social Unrest
 Instability
 Radicalism
 Power Struggle
 Civil War, Revolution, Invasion
 • Closed Society

Our reality is completely satanically inverted, just as described:

Active Measures - May be taken by lone individuals or groups

- Turn Reality Upside Down
 - Victims being sued, punished; offenders coddled
- Use Double Standards against the target
 - Ok for Our President/Party; not OK for your President/Party
- Overt and covert information programs
 - Disinformation pushed to and by uncritical or partisan media
 - Fake Media reporting
 - Outright lying (Shifts the burden to the target to prove his innocence)

Active Measures

- Agents of Influence (Influencers - Talk Shows)
 - .. Deceptive "International Forums" to encircle the target and berate the target.
- Provoking and manipulating mass demonstrations
 - Provide controllers and administrators for demonstration.
 - Provide weapons (e.g. Pre-position bats, pallets of bricks)

Active Measures

- Spread rumors and "reliable information" impugning target officials
- Plant phony stories in local media
- Create/Control local - national media and slant their stories.
- Shape the debate to focus on trivial or non-essential stories to induce delay and failure.

Demoralization

- Ideas
 - One way street

- Target nation must be the target of the ideas of the subverter
- Democracies are recipients and repositories of ideas, good and bad
- Instill bad ideas
- It takes time (decades) to recognize and repudiate bad ideas, creating a window for action for the subverter.
- Use committed or sympathetic unwitting politicians, educators, activists, & influencers to delay recognition & response to bad ideas

We know about the cancel culture, that in many countries is getting worse, since this is a global ideological attack on behalf of the One World Order

Demoralization

- Ideas
 - Label, demean and cancel those who argue against "bad ideas"
 - Bypass their arguments and attack them on a personal level
- Everyone has a secret that can be exploited
- If one is not found, make it up
- Shift the burden of proof and bury them.

Education in the US has been ruined. The only way not to have indoctrinated kids is to home school.

Demoralization

- Ideas
 - RELIGION: Politicize, demean, restrict
 - EDUCATION: Re-educate teachers. Revise history; accentuate the negative
 - MEDIA: Monopolize (concentrate into a few holders), manipulate, focus on trivia and non-issues; reduce the public's strategic thinking
 - CULTURE : Replace historical figures, accentuate their shortcomings; replace with false heroes and role models; aggravate differences in multicultural societies

Ask AI to show you a picture of the founding fathers and you will be lied to.

Demoralization

- Ideas
 - CULTURE : Replace historical figures, accentuate their shortcomings; replace with false heroes and role models; aggravate differences in multicultural societies
 - Test:
Ask your child or nieces and nephews to show you their school history book and look up the summaries of the Founding Fathers.

The judicial system is hopelessly corrupted in the US as we have seen over the last 4 years and more

Demoralization

- Structure (Socio-Political set up of a nation)
 - JUDICIAL, LAW ENFORCEMENT
- Induce mistrust of legal system by politicizing decisions.
- Emphasize individual "rights" over "responsibilities" and "obligations".
- National Lawyers Guild

<https://tennesseestar.com/2020/03/10/commentary-antifas-most-important-enabler-is-its-legal-arm-the-national-lawyers-guild/>

Demoralization

- Life (Life, health services, race relations, population control, labor relations)
 - Separate child's loyalty from family and country, but cultivate loyalty to party and party philosophy
 - Erase National history (classes, icons [statues, parks, monuments])
 - Modify history /government classes to accentuate the negative.
 - Develop welfare state where the takers out number the providers

- Aggravate race relations and suppress/criminalize criticism of troublemakers

Destablization

- Power Struggle
- Offer job security, free social services, other "pleasure strokes" from the Government at the expense of individual responsibility.
- Weaken traditional national institutions and induce the people to shift to charismatic politicians who offer free government services.
- Use "mob-ocracy" to advance the agenda.
- Focus on short term solutions that are quick fixes in the public eye.
- Supplant free bargaining/free enterprise with "planned economy" and "centralization" shifting power to the new political center

Destablization

- Power Struggle
- Cripple the division of power (Executive, Legislative, Judicial)
- Restriction on Executive power, packing the supreme court, criminalizing differences in the legislature
- Undermine faith in the institutions
- Eliminate the Electoral College that protects the rural against the overpopulated urban centers (Cities).
- Control the Urban centers (cities) to control the Rural areas

Our country is being systematically destroyed according to a socialist ideological textbook that a Russian defector explained quite to the point. The most important weapon is the MANIPULATION OF PERCEPTION. That is psychological warfare, that can also be enforced via the remote world mind control grid. Every aspect of social structure can be attacked, since our electrical brain signals are easily manipulated by TV monitors, smart phone, trojan horse mind viruses spread via social media. People have not yet understood that digital viruses can attack a biological system and brain and entrain the brain via programming. It cannot be overstated that the military

battlespace of the future that is here is the mind. This is why the CIA and all arms of the military since the 1940's have focused on subverting the mind of populations.

"If both the past and the external world exists only in the mind, and if the mind itself is controllable – what then?" – George Orwell in 1984

The 4 Stages of Ideological Subversion have been described here:

Stage 1: Demoralization

Demoralization is the first stage of ideological subversion, and it involves the systematic undermining of a society's moral and ethical foundations. Bezmenov explained that this process typically takes 15–20 years, roughly the time needed to educate one generation. During this stage, foreign agents seek to infiltrate educational institutions, media, and cultural platforms to influence the minds of young people. The goal is to instill a sense of disillusionment, moral relativism, and a rejection of traditional values.

In the demoralization phase, individuals are conditioned to question their own cultural identity, history, and societal norms. The emphasis is on creating a sense of instability and disorientation within the target population. This sets the stage for the subsequent phases of ideological subversion.

Stage 2: Destabilization

Once demoralization has taken root, the next stage is destabilization. This phase is characterized by the weakening of essential institutions and structures within the society. Bezmenov pointed out that this process can be expedited if foreign influence successfully manipulates the political, economic, and defense systems. Key sectors such as law enforcement, military, and intelligence are targeted to compromise the nation's ability to respond to external and internal threats.

Destabilization aims to create a state of crisis, fostering a sense of insecurity and anxiety among the population. Economic instability, social unrest, and political

polarization become prominent features of this stage, laying the groundwork for further manipulation.

Stage 3: Crisis

The third stage of ideological subversion is the crisis phase. By this point, the society is in a state of chaos, with heightened tension and a breakdown of trust in institutions. Bezmenov highlighted that this crisis could manifest in various forms, including political upheaval, economic collapse, or social unrest. The goal is to push the society to a breaking point where people are desperate for solutions, paving the way for radical change.

During the crisis phase, external forces may exploit the vulnerabilities within the society, offering alternative ideologies or solutions. This creates an opportunity for a shift in power dynamics and the imposition of foreign ideologies on the now susceptible population.

Stage 4: Normalization

The final stage is normalization, where the previously subverted ideology becomes the new norm. Bezmenov emphasized that this phase is not about a return to stability but rather the establishment of a new societal order based on the foreign ideology. The once-targeted society is now reshaped according to the infiltrating force's vision, erasing its original cultural identity and values.

Normalization solidifies the control of the foreign ideology, and the population may no longer resist as the altered reality becomes accepted and internalized. The society is transformed, and the process of ideological subversion is complete.

Yuri Bezmenov's insights into the stages of ideological subversion remain relevant, serving as a cautionary reminder of the importance of preserving the values, institutions, and cultural identity that define a nation. Understanding these stages provides a framework for recognizing and countering potential threats to the integrity of a society.
